

THE UK FIREWORK COMPANY is a firework retailer and display operator covering the whole of the UK. We are specialists at working with you to provide a stunning display within your budget.

### **Services**

Wedding Packages, Corporate or Council Packages, Fire Writing, Rooftop displays, Indoor Fireworks, Stage Pyrotechnic Displays.

#### **Wedding - Corporate Package 1 @ 449.00**

An explosive finale display lasting only 2 - 3 minutes but will blow you away. Fast paced, vivid colour schemes, this low value display is just the thing for the close of that all-important event. Multiple display cakes fired simultaneously create a huge sky full.

#### **Wedding - Corporate Package 2 @ 575.00**

A high impact aerial display lasting about 5 minutes. The display starts with a candle battery sending up coloured tails at different angles; this is followed by rapid bursts of colour in multiple formations to give a jaw dropping effect. Finally to end the display, a barrage of aerial shells with loud reports to wow the crowd and leaves the night as one to remember. Display consists of around 1800 shots.

#### **Wedding - Corporate Package 3 @ 675.00**

A 6 minute aerial display which builds from package 2. This package incorporates a lot of the previous option but uses slightly larger fireworks. The finale lasts longer with higher altitude effects used this is ideal for displays to finish the evening off spectacularly. Display consists of around 2400 Shots.

#### **Wedding - Corporate Package 4 @ 775.00**

Lasting about 7 minutes. This display has a larger candle formation at a slightly quicker pace. Once again rapid colour bursts keep the sky constantly full. The finale is a definite must see. Huge bursts both low to the ground and high above, provides a panoramic effect. This display consists of about 3000 shots.

### **Wedding – Corporate Package 5 @ 875.00**

This is our most popular wedding display package, it is an 8 minute cracker. Large candles and smaller display cakes start off the action, followed by an assortment of aerial shells. Large display cakes bring the display up to the final sequence, in which we fire multiple shell racks with the largest of our display cakes to create a stunning array of colour and noise. This display consists of about 3600 shots.

### **Wedding – Corporate Package 6 @ 975.00**

This is the grand display for a mid sized budget Ideal for something extra special with a variable time duration dependant on your requirements. Starting with low-level candles and smaller display cakes then builds to the larger and more powerful items. Wider spread and larger bursts keep the momentum flowing. To close this display we have put together a huge sequence, a huge artillery of shell bursts, high in the sky with low-level mines and loud thunderous reports. Over 5000 shots used.

### **Wedding – Corporate Package 7 @ 1499.00**

This display is based on the Previous package, but has an extra 5-minute duration. That makes for a massive 15 minutes of action packed display time. The same multi-candle opening sequence, large, top quality multishot display cakes with a longer final sequence. More power, more effects more noise just creates for a perfect end to the evening. This package is designed for those customers who want a slightly longer duration.

### **Wedding – Corporate Package 8 @ 1999.00**

This display is the flagship in our wedding packages. We have left the time duration down to you but would recommend between 11 – 13minutes. Right from the beginning there's a mix of cakes, candles and smaller aerial shells being launched. As the display progresses, larger shells start being fired with faster running display cakes. The sky is constantly full of effects and colours very carefully plotted and choreographed. Multiple sequences run both simultaneously and parallel building up to a finale. The largest shells of our wedding packages are used in this finale along with all our high quality, large bore display finale cakes. We also offer -

- Initials, Names and Symbols in fire writing to personalise the finale to your display
- Large Ground based Heart Shapes - £37.50
- Ground based Fire Writing - £22.50 (Per Letter)
- Start the display yourself using our remote control system - £15.00
- Extended finale to increase sky coverage - £49.75
